Bolt Circle Diameter:

2.047 inches

Usage Design:

Engine oil pressure

Graduation Unit:

25.0 pounds

Actuation Type:

Pressure sensing element

Adjustability:

Nonadjustable

Scale Range:

+0.0 to 100.0 pounds pressure

Scale Name:

Pressure

Dial Size:

2.000 in. Dia

Connection Quantity:

1

Pointer Color:

White

Pointer Type:

Indicating

Scale Type:

Dial

Scale Smallest Increment:

5.0 pounds

Connection Type:

External

Mounting Method:

Bracket

Stud Quantity:

2

Actuating Element Material:

Brass

Connection Location:

Back, center

Protective Crystal Material:

Glass

Connection Size:

0.125 npt

Mounting Connection Location:

In back

Stud Location:

Lower back and upper back

Connector Type Vent:

Not provided

Functional Description:

Heavy duty

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
