**Bolt Circle Diameter:**

2.047 inches

**Usage Design:**

Engine oil pressure

**Graduation Unit:**

25.0 pounds

**Actuation Type:**

Pressure sensing element

**Adjustability:**

Nonadjustable

**Scale Range:**

+0.0 to 100.0 pounds pressure

**Scale Name:**

Pressure

**Dial Size:**

2.000 in. Dia

**Connection Quantity:**

1

**Pointer Color:**

White

**Pointer Type:**

Indicating

**Scale Type:**

Dial

**Scale Smallest Increment:**

5.0 pounds

**Connection Type:**

External

**Mounting Method:**

Bracket

**Stud Quantity:**

2

**Actuating Element Material:**

Brass

**Connection Location:**

Back, center

**Protective Crystal Material:**

Glass

**Connection Size:**

0.125 npt

**Mounting Connection Location:**

In back

**Stud Location:**

Lower back and upper back

**Connector Type Vent:**

Not provided

**Functional Description:**

Heavy duty

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T179-b
