Scale Marking And Surface Finish:

Numerals nonluminous

Width:

4.250 inches

Depth:

4.000 inches

End Application:

Pilothouse gage panel

Presentation Type:

Ammeter

Scale Range:

+0.1/+2500.0 engine revolutions per minute single indicator single scale

Pointer Finish:

Nonluminous single pointer

Pointer Type:

Indicating single pointer

Product Name:

Tachometer, electric, series 522

Special Features:

Es 0-1 milliamps dc. Scale = 0-25 rpm x 100. Option = 24 volts dc with red illumination. Option = calibrated at 20 degrees from horizontal.

Psc = 2210118

Height:

4.250 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A532q0
