Current Type:

Dc

Mounting Device Quantity:

1

Actuation Method:

Element

End Application:

P-23 fire truck

Voltage Rating:

0.0 volts output and 5.0 volts output

Measurement Range:

+0.0/+250.0 pounds per square inch

Special Features:

500 psi min. Burst pressure; 0-250 psi input produces 0-5 vdc linear output; p/n 1124-11g-c72-b is optional configuration.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
