Current Type:

Dc

Voltage Rating:

1.0 pounds per hour dry output and 5.0 pounds per hour with retaining chain output

Electrical Connection Quantity:

1

Electrical Connection Controlling Agency:

Omega engineering inc

Special Features:

0-200psi; for liquid and gas; gages: thin film polysilicon; excitation 10 to30vdc unregulated; -55 to 195 degrees operating temp; diaphragm: 17-4ph stainless steel; case: 300 series stainless steel; electrical connection: 36 in (.9 m) braided shield pvc cable or connector; 0.4% accuracy; response time 1ms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
