**Current Type:**

Dc

**Voltage Rating:**

1.0 pounds per hour dry output and 5.0 pounds per hour with retaining chain output

**Electrical Connection Controlling Agency:**

Omega engineering

**Special Features:**

0-2000 psi; excitation: 10 to 30 vdc unregulated; -55 to 195 degrees operating temperature; gages: thin film polysilicon; case: series 300 stainless steel; electrical connection: 36 in (.9m) braided shield pvc cable or connector; used for liquid or gas

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T179-e
