Current Type:

Dc

Voltage Rating:

1.0 pounds per hour dry output and 5.0 pounds per hour with retaining chain output

Electrical Connection Quantity:

1

Electrical Connection Controlling Agency:

Omega engineering

Special Features:

0-30psi, used for liquid and gas; excitation: 10 to 30vdc unregulated; -55to 195 degrees operating temperature; gages: thin film polysilicon; diaphragm: 17-4ph stainless steel; case: series 300 stainless steel; electrical connection: 36 in (.9m) braided shield pvc cable or connector; 0.4% accuracy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
