End Application:

Frigid inflatable boat

Graduation Unit:

1.0 pounds per square inch

Actuation Type:

Pressure sensing element

Scale Range:

+0.0/+30.0 pounds per square inch

Scale Name:

Water

Scale Type:

Dial

Scale Smallest Increment:

1.0 pounds per square inch

Mounting Method:

Panel

Product Name:

Sc100 system link water pressure gauge

Special Features:

Fits 2001 and newer optimax outboards, 2002 and newer v-6 efi, 30-60 efi 4-stroke, all smartcraft compatible mercruiser and mercury

racing product when these models have the 555 ecm, application of this gauge will depend on the individual engine model and its available

sensors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
