**End Application:**

Frigid inflatable boat

**Graduation Unit:**

1.0 pounds per square inch

**Actuation Type:**

Pressure sensing element

**Scale Range:**

+0.0/+30.0 pounds per square inch

**Scale Name:**

Water

**Scale Type:**

Dial

**Scale Smallest Increment:**

1.0 pounds per square inch

**Mounting Method:**

Panel

**Product Name:**

Sc100 system link water pressure gauge

**Special Features:**

Fits 2001 and newer optimax outboards, 2002 and newer v-6 efi, 30-60 efi 4-stroke, all smartcraft compatible mercruiser and mercury racing product when these models have the 555 ecm, application of this gauge will depend on the individual engine model and its available sensors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T179-b
