Overall Length:

1.647 inches

Overall Diameter:

Between 0.804 inches and 0.808 inches

End Application:

Deltadyne differential pressure indicator assembly (non-resettable) ; ch-53a/d/e

Component Type And Quantity:

1 indicator

Product Name:

Inavy: pressure indicator

Special Features:

Deltadyne is a matched assembly, parts may not be purchased separately and are not necessarily interchangeable. Non-resettable. Actuation pressure: 24 psid + or - 3 psi. System pressure: 100-120 psi; proof: 250 psi; burst: 400 psi. Temperature range: -65 to +300 degrees f. Fluid: lubricating oi (mil-I-7808, mil-I-23699). Once actuated the button remains in the actuated position until the indicator is inverted and manually depressed. Thermal lockout: a bimetal element is provided which prevents actuation below 125 degrees f, permits actuation above 155 degrees f. Has a red indicator button , extends 3/16" when actuated (annodized and dyed red) top surface of indicator button to be clear.

Shelf Life:
