Overall Height:

6.000 inches

Overall Width:

16.000 inches

End Application:

F-15 aircraft systems

Special Features:

16 in. Lgth; document: engineering p/list no. T.O. 33d-1-121 (31-1) a

Functional Description:

Provides cooling air, interconnects the transformer rectifier to an air input source and load, and provides test points to allow monitoring of performance parameters

Reference Data And Literature:

33d-1-121

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A17600
