**Overall Height:**

6.000 inches

**Overall Width:**

16.000 inches

**End Application:**

F-15 aircraft systems

**Special Features:**

16 in. Lgth; document: engineering p/list no. T.O. 33d-1-121 (31-1) a

**Functional Description:**

Provides cooling air, interconnects the transformer rectifier to an air input source and load, and provides test points to allow monitoring of performance parameters

**Reference Data And Literature:**

33d-1-121

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A17600
