Overall Height:
6.000 inches
Overall Width:
16.000 inches
End Application:
F-15 aircraft systems
Special Features:
16 in. Lgth; document: engineering p/list no. T.O. 33d-1-121 (31-1) a
Functional Description:
Provides cooling air, interconnects the transformer rectifier to an air input source and load, and provides test points to allow monitoring of
performance parameters
Reference Data And Literature:
33d-1-121
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A17600
