Mounting Type:

Panel

Overall Length:

3.310 inches

Overall Diameter:

3.060 inches

Case Material:

Aluminum

Maximum Current Rating:

4.000 amperes

Individual Section Quantity:

10

Maximum Voltage Rating In Volts:

0.4 dc

Basic Shape Style:

Cylindrical

Adjustment Method:

Rotary switch

Dial Type:

Movable pointer dial

Accuracy Range In Percent:

-0.02 to 0.02

Overall Electrical Value Range:

+0.000 to 0.100 ohms

Electrical Increment Value Per Section:

0.100 ohms

Terminal Type And Quantity:

2 wire lead

Special Markings:

0 through 10

Fsc Application Data:

Elec. Elect. Properties measuring and test instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31500
