**Component Type And Quantity:**

10 capacitor and 20 rectifier and 20 resistor and 1 socket and 50 terminal

**Special Features:**

Component type and quantity: wiring board 1; mounting method and configuration: unthreaded holes; 22 awg tinned copper wire; fault indicator subassembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511I0
