Overall Length:

2.380 inches

Overall Height:

0.950 inches

Overall Width:

1.500 inches

Current Type:

Dc

Case Material:

Any acceptable

Internal Battery Accommodation:

Not included

Output Impedance Rating:

10.0 kilohms

Voltage Rating:

25.0 volts

Modulation Type:

Square wave

Fixed Frequency Rating:

5.44 kilohertz

Fixed Frequency Quantity:

1

Crystal Controlled Feature:

Not provided

Maximum Signal Output:

6 v

Modulator Location:

Internal

Modulated Frequency Rating:

5.44 kilohertz

Modulation Degree:

183.82 usec pulse

Specification Or Standard:

No. 577r627h01 type

Fsc Application Data:

Guided missile remote control system, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
