Inclosure Material:

Aluminum

Overall Length:

2.500 inches

Overall Height:

7.125 inches

Overall Width:

5.415 inches

Frequency Rating:

1.1 gigahertz

Power Output Rating:

100.0 milliwatts

Inner Surface Material:

Silver

Power Takeoff Method:

Power take-off from coupling loop

Tuning Facility:

Provided

Fsc Application Data:

Radar set, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T213-c
