Overall Length:

3.000 inches

Overall Height:

4.250 inches

Overall Width:

2.000 inches

End Application:

Type ki-24

Component Type And Quantity:

1 shaft

Special Features:

Disc, damping 1; pivots 2; vanes, magnetic 2; used as movement for a synchroscope; pivots mtd loosely in a pair of jewels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
