Circuit Current For Which Designed:

Dc

Scale Division Quantity:

50 single indicator single range

Installation Design:

Panel

Sensitivity Rating:

10000.0 ohms per volt

Dial Scale Marking Color:

Black single indicator single range

Accuracy In Percent:

-2.0/+2.0 at full scale single indicator all ranges

Background Color:

White single indicator single range

Measurement Range:

+0.0/+100.0 volts, dc single indicator single range

Scale Selection Method:

Terminal

Special Features:

Mounting method flange

Material:

Plastic

Style Designator:

Rectangular flush mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
