Overall Length:

3.000 feet

Electrical Resistance:

50.00 ohms impedance

Retracted Length:

2.917 feet

Strand Quantity Per Conductor:

19 all conductors

Conductor Form:

Stranded all conductors

Strand Awg Size Per Conductor:

33 all conductors

Conductor Arrangement And Quantity:

1 coaxial

Terminal Manufacturer Identifying Reference Number:

Ug-88/u 2nd end all conductors

Terminal Commercial And Government Entity Code:

96906 1st end all conductors

Special Features:

Cable, polyethelene dielectric; cable type identification, jetds, type no. Rg-58a/u; 0.195 in. Diameter o/a cross sect. Of cable; 1st and 2nd terminal end qty, 1 connector plug male, all conductors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
