Joint Electronics Type Designation System Item Name:

Window, cathode ray tube

Joint Electronics Type Designation System Item Type Number:

Type mx-1624/upa-35

Mounting Configuration:

By separate retaining ring

Viewing Surfacediameter:

12.813 inches

Viewing Surfacethickness:

0.250 inches

Color:

Clear

Material:

Plastic

Material:

Plastic

Fsc Application Data:

Indicator, group, radar, nonairborne except fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T205-a
