Overall Length:

6.000 inches

Overall Height:

3.250 inches

Overall Width:

4.000 inches

End Application:

Part no. T15828-3

Component Type And Quantity:

4 pin and 2 bushing and 1 mount and 1 plate

Special Features:

Component quantity: 10; usage design: used to calibrate the a/a transmitter calibrator for correct mechanical zero; mounting configuration: two 0.126 in.Dia pins on 3.622 in.Mtg ctr and one 0.125 india arm guide hole on 3.711 in.Rad; fsc application data: aircraft maintenance and repair shop specialized equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A5110
