**Overall Length:**

5.000 inches

**Overall Height:**

0.374 inches

**Overall Width:**

8.000 inches

**Component Type And Quantity:**

1 capacitor and 5 diode and 1 board and 16 resistor and 5 transistor

**Special Features:**

Mounting configuration: plug into standard 43 contact socket; fsc application data: test set, guided missile

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
