Center To Center Distance Between Mounting Facilities Parallel To Length:
6.000 inches
Center To Center Distance Between Mounting Facilities Parallel To Width:
3.000 inches
Mounting Hole Diameter:
0.138 inches
Scale Division Quantity:
10 single indicator single range
Frequency Rating:
60.000 hertz
Mounting Arrangement Style:
Four hole/stud rectangular/square
Accuracy In Percent:
-2.0/+2.0 at full scale single indicator all ranges
Power Source:
External
Mounting Facility Type And Quantity:
4 threaded hole
Measurement Range:
+0.0 to 300.0 volts, ac single indicator single range
Phase:
Single
Surface Treatment:
Enamel
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A310a0
