Center To Center Distance Between Mounting Facilities Parallel To Length:

6.000 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

3.000 inches

Mounting Hole Diameter:

0.138 inches

Scale Division Quantity:

10 single indicator single range

Frequency Rating:

60.000 hertz

Mounting Arrangement Style:

Four hole/stud rectangular/square

Accuracy In Percent:

-2.0/+2.0 at full scale single indicator all ranges

Power Source:

External

Mounting Facility Type And Quantity:

4 threaded hole

Measurement Range:

+0.0 to 300.0 volts, ac single indicator single range

Phase:

Single

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
