Overall Length:

4.250 inches

Overall Height:

1.421 inches

Overall Width:

4.171 inches

Component Type And Quantity:

12 capacitor and 1 chassis and 4 coil and 1 grommet and 12 resistor and 3 retainer and 3 transistor

Special Features:

Mounting method: circuitry mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
