Ac Voltage Rating:

Between 103.0 volts and 126.5 volts

Frequency Rating:

Between 47.5 hertz and 450.0 hertz

Indicator Type:

Numbered dial

Mounting Method:

Case mounted portable

Instrument Calibration Range:

100 to 799900 yards

Calibration Accuracy Rating:

Porm 0.01 per cent porm 5 yards

Phase:

Single

Functional Classification:

Aa-10.5

Functional Description:

Checks accuracy and calibration of radar range systems using triggered signal pulses

Entry Date:

78-09-01

Reference Data And Literature:

Tech manuel for range calibrator, an/usm-115a, tm 17-20gg-10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-b
