Overall Length:

4.750 inches

Overall Height:

3.500 inches

Overall Width:

4.300 inches

Case Material:

Aluminum or brass

Case Surface Treatment:

Irridite, nickel and silver plated

End Application:

Type no. Am-4410-grc

Internal Battery Accommodation:

Not included

Rectifier Type:

1n78 crystal

Instrument Calibration Range:

14.0 ghz to 15.0 ghz range

Calibration Accuracy Rating:

Porm 0.05 pct accuracy

Band Switch Position Quantity:

9

Special Features:

Part is not cased, materials and finishes for individual sections of wavemeter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-h
