Mounting Type:

Portable case

Overall Length:

13.125 inches

Overall Height:

6.500 inches

Overall Width:

7.625 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 400.0 hertz

Case Material:

Metal

Case Surface Treatment:

Enamel, gray

Frequency Range Rating:

+10.000 to 500.000 megahertz

Internal Battery Accommodation:

Not included

Output Impedance Rating:

50.0 ohms

Voltage Rating:

Between 105.0 volts and 125.0 volts and 210.0 volts and 250.0 volts

Frequency Band Quantity:

6

Calibration Accuracy Rating:

Porm 2.000 percentaccuracy on all bands

Crystal Controlled Feature:

Not provided

Maximum Signal Output:

200 mw 10 to 130 mhz, 150 mw 130 to 260 mhz, 25 mw 260 to 500 mhz into matched load

Phase:

Single

Fsc Application Data:

Countermeasures set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
