**Mounting Type:**

Panel

**Overall Length:**

8.350 inches

**Overall Diameter:**

3.150 inches

**Case Material:**

Metal

**Case Surface Treatment:**

Cadmium plated

**Environmental Protection:**

Dustproof and moisture proof and salt spray resistant

**Maximum Operating Temp:**

85.0 degrees celsius

**Individual Section Quantity:**

3

**Maximum Voltage Rating In Volts:**

750.0 ac

**Basic Shape Style:**

Cylindrical

**Panel Material:**

Aluminum alloy

**Adjustment Method:**

Rotary switch

**Accuracy Range In Percent:**

-0.03 to 0.03

**Overall Electrical Value Range:**

+0.100 to 10.000 kilohms

**Electrical Increment Value Per Section:**

10.000 kilohms

**Temperature Coefficient Of Electrical Value In Ppm Per Deg Celsius:**

Not rated

**Terminal Type And Quantity:**

3 solder stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31500
