Overall Height:

3.500 inches

Overall Width:

19.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz input

Installation Design:

Fixed

Voltage Rating:

105.0 volts input and 130.0 volts input

Chart Speed:

2.5 centimeters per hour

Special Features:

Linear phase recorder measures difference in phase between 2 sigs; 5 watts; pressure sensitive paper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T179-q
