

View Online at <https://aerobasegroup.com/nsn/6625-00-150-0047>

**Special Features:**

Two way in phase power divider/combiner; 0.875 in. Lg; 0.375 in. Dia; five leads 0.017 in. Dia; one key tab located on 0.375 in. Dia; one mechanical ground; one internal isolating resistor; frequency response two mhz min to one hundred mhz max; no. Of outputs two; isolation db min forty; insertion loss db maximum 0.250; phase one deg; amplitude db 0.100; impedance nom fifty ohms; vswr maximum 1.2: 1; power maximum three watts; temp range neg 54 degree 0 to pos 100 degree c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A512n0
