## NSN 6625-00-228-3325

Sweep Generator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-00-228-3325

Basic Shape Style:
Rectangular or square
Inclosure Type:
Encased
Installation Design:
Top of cabinet/counter
Circuit Construction Type:
Solid state
Frequency Per Channel:
18.0 gigahertz operating channel err-100
Indicator Device Type And Quantity:
1 meter
External Ac Operating Voltage In Volts:
220.0 2nd voltage
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:

A32200
