Overall Length:

23.300 inches

Overall Height:

13.500 inches

Overall Width:

12.000 inches

Current Type:

Ac

Frequency Rating:

Between 48.0 hertz and 440.0 hertz

Voltage Rating:

Between 115.0 volts and 230.0 volts

Mounting Method:

Cabinet w/complete hardware for rack

Screen Size:

8 by 10 centimeters

Special Features:

Option 2 is x-y delay compensation network equalizes signal delay between vertical and horizontal systems

Reference Data And Literature:

To 33a1-13-422-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-g
