Overall Length:

21.625 inches

Overall Height:

16.594 inches

Overall Width:

15.625 inches

Component Quantity:

1

Locking Device:

Included

Component Controlling Agency:

Jcens

Component Name:

Signal generator

Component Identifying Number:

Sg-12/u type no.

Handle Quantity:

2

Locking Device Type:

Separate

Handle Location:

Each side

Special Features:

W/catch fasteners, removable cover

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
