Overall Length:

3.000 inches

Overall Height:

1.375 inches

Overall Width:

1.375 inches

Component Type And Quantity:

9 capacitor and 1 case and 7 resistor and 1 shield

Special Features:

Mounting method and configuration: plugs into 8 pin octal tube socket; bridge, capacitance inductance resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
