Overall Length:

1.875 inches

Overall Height:

0.625 inches

Overall Width:

1.500 inches

End Application:

Type no. Ts-497a/urr; generator, signal

Component Type And Quantity:

1 bracket and 1 coil and 1 resistor

Special Features:

Major components: insulator plate w/3 contacts; usage design: oscillator tuning coil; mounting method and configuration: two 0.136 inch diameter mounting holes on 1.000 inch center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
