Overall Length:

15.300 inches

Overall Height:

6.000 inches

Overall Width:

8.700 inches

End Application:

F/ft-15 aircraft

Unit Type:

Differential input amplifier

Special Features:

Mainframe designed to accomodate 3 tektronix tm500 series plug in units

Reference Data And Literature:

T.O. 33d7-33-106-11; tektronix 070-1305-00

Supplementary Features:

Manufacturers name: power module cabinet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
