Special Features:

Lbandwidth 20 khz to 1 ghz; deflection factor less than 4 v/div; input z 50 ohms; maximum input voltage 25 vdc, 100 v pulsed ac; includes interconnecting board assembly; manufacturers name: direct access plug in unit

Functional Description:

Designed specifically for the ac coupling of high frequency or fast risetime signals directly into the wide bandwidth crt of the 7900 and 7800 tek oscilloscopes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
