Overall Length:

19.125 inches

Overall Height:

7.000 inches

Overall Width:

16.875 inches

Ac Voltage Rating:

115.0 volts and 220.0 volts

Frequency Rating:

Between 47.0 hertz and 63.0 hertz

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Indicator Type:

Cathode ray tube

Unpackaged Unit Weight:

33.000 pounds

Phase:

Single

Functional Description:

Vectorscope (ntsc), measures luminance amplitude, chrominance amplitude and phase of ntsc composite color television signal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T263-c
