Circuit Current For Which Designed:

Ac and dc

Dial Scale Marking Color:

Black single indicator single range

Accuracy In Percent:

-0.5/+0.5 at full scale single indicator all ranges

Movement Type:

Moving iron vane

Background Color:

White single indicator single range

Features Provided:

Zero adjuster

Material:

Wood

Surface Treatment:

Lacquer

Reference Number Differentiating Characteristics:

As differentiated by range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
