Product Name:

Tester defibrillator energy:

Unit Of Issue Cube:

1.250 cubic feet

General Description:

Portable; 115 volt; 60 hz, ac; or battery powered; w/carrying case; energy measurement range of 15 degrees to 40 degrees c, and waveform measurement range of 2-40 milliseconds; for use in verifying or calibrating the output energy from all dc defibrillators

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
