**Overall Length:**

6.869 inches

**Overall Height:**

4.438 inches

**Overall Width:**

7.000 inches

**End Application:**

134seav2001-1

**Component Type And Quantity:**

1 bracket and 1 capacitor and 1 plate and 8 choke and 1 synchro

**Special Features:**

Component type and quantity: transducers 8; usage design: used to test synchrophaser; mounting configuration: four shock mounts, one in each corner, plug into standard 10-pin socket

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A5110
