General Description:

Zero center type movement, semaphore arm type display, coil resistance 650 x 2 ohms, min current 0.0007 amps, 1.5 v, continuous overload 30 v, power at maximum sensitivity type 1 mw, power for maximum stability type 800 min, insulation 750 v rms, w/front mtg flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
