Overall Length:

20.250 inches

Overall Height:

8.000 inches

Overall Width:

9.000 inches

Dc Voltage Rating:

28.000 volts

Closure:

Included

Test Type:

Amplification

Special Features:

To name: servo amplifier and filter tester; used to test accelerometer servo amplifier/filter boards 722-0175-001 and 722-0178-001

Reference Data And Literature:

To 33d3-2-70-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-g
