**Overall Length:**

16.750 inches

**Overall Height:**

5.250 inches

**Overall Width:**

11.250 inches

**Ac Voltage Rating:**

115.0 volts and 230.0 volts

**Frequency Rating:**

48.0 hertz and 440.0 hertz

**Electrical Power Source Relationship:**

Operating

**Indicator Type:**

Led readout

**Unpackaged Unit Weight:**

18.000 pounds

**Phase:**

Single

**Functional Classification:**

Aa-3.3

**Special Features:**

Can be equipped with printer for hard copy recording of long tests

**Functional Description:**

isolates data communications link problems through six simultaneous measurements: bit error, block error, jitter, total peak distortion, data error skew, counts clock slips and carrier loss or dropout occurrences

**Reference Data And Literature:**

Hp 1988 catalog

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T263-c
