Overall Length:

3.625 inches

Overall Height:

0.812 inches

Overall Width:

0.937 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

External Dc Operating Voltage In Volts:

28.0 single voltage

Special Features:

Nain: noise generator; 12.4 to 18ghz range; excess noise ratio 15.5db; vswr 1.3 max; output connector osm female; input connector bnc female

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
