End Application:

B-52 stratofortress, c-135 stratolifter, c-130 hercules, f-16 aircraft, 485l tacs, radar systems, phase array fps-85, precision landing radar an/fpn-62, radar set (gpn-xx) an/gpn-20, light weight tacan an/trn-26, iff interrogator an/upx-14, joint stars target radar system, ac-130h, mc-130h, ec-130e, hc-130 aircraft.

Special Features:

10 mhz to 10 ghz; temperature compensated for low drift; measures microwave power as low as one microvolt; shows calibration factor and effective efficiency at six frequencies

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
