Circuit Current For Which Designed:

Ac and dc

Indicator Type:

Digital display

Installation Design:

Rack

Background Color:

Black single indicator all ranges

Power Source:

External

Display Digit Quantity:

5

Display Color:

White single indicator all ranges

Interface Compatibility:

Bcd

Special Features:

Autoranging from 1uv to 1000 v; filter plus integrator for 74 db noise rejection; model is half-rack configuration; 4 wire ratio measurement technique; remote programming capability; modular design with field expandable plug-in converter board capability; standard model 5300 offers 5 dc ranges with 1uv resolution; 0.005 pct dc accuracy

Style Designator:

Rectangular surface mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
