Overall Length:

12.188 inches

Overall Height:

7.625 inches

Overall Width:

6.375 inches

Component Quantity:

4

Locking Device:

Not included

Component Controlling Agency:

Jetds; electro impluse laboratory; n

Component Name:

Rf wattmeter; bracket, angle; instruction books

Component Identifying Number:

109c1071 part no. And me-11a/u type no.

Handle Quantity:

1

Handle Location:

Top center lid

Special Features:

2 latch clasps on each side

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
